VOLUME CVI.---NO 85. ALEXANDRIA, VA., TUESDAY EVENING, APRIL 11, 1905. PRICE 2 CENTS.

TIRED OUT.

There's many a wife sits in the growing shadows of an evening, knowing what it is to feel tired out; as if there was not another ounce of effort left in her. But if healthy she knows how sound her slumber will be and how refreshed the morning will find her. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. She feels acutely the aching back and throbbing nerves.

Sick women, hundreds of thousands of them, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I am pleased to inform you of the benefit I received from using Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,'" writes Mrs. Elizabeth A. Oswold, of 45 Brant Street, Windsor, Essex Co., Ontario, Canada. "Was quite discouraged when I wrote asking your advice, as the physicians here told me I could get no relief except by an operation. Suffered for four years from irregular and profuse menstruation, had sick and nervous headaches most of the time, and at times could hardly walk across the floor from weakness. I thank God there is such a remedy as Dr. Pierce's Favorite Prescription for suffering women. Before I had taken the first bottle the headaches had left me and it was not long before regularity was established and still continues so. Have just finished house-cleaning which I never expected to be able to do again, and can truly say I never felt better than at present. I gladly recommend 'Favorite Prescription' to all who suffer from female weakness. It has cured me and made me stronger in every way. Neither my husband nor myself can say enough in its praise."

The selfish seller who urges some substitute is thinking of the larger profit he'll make and not of your best good.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Young Married Couple Sentenced.

Lee M. Evans, the former Brooklyn street car conductor and a member of a prominent West Virginia family, and his 18-year-old wife, Florence, who pleaded guilty last Thursday to attempted forgery in the second degree in signing the name of Mrs. Evans's father, William B. Springer, to a check for $15 on the Brooklyn Trust Company, appeared before Judge Aspinwall, in the County Court, Brooklyn, yesterday morning, for sentence. When they were arraigned on Thursday each tried to take the blame for forging the check and to exculpate the other. When Judge Aspinall asked them which one signed the check they both said "I did," in chorus, and each said the other was entirly blameless and knew nothing about the transaction. Yesterday morning, however, their lawyers did all the talking, and each tried to shift the blame from his client to the other of the pair. Evans was brought out by his lawyer, John R. Griffith, who immediately began to make a plea for clemency on the ground that Evans was a member of a good family, who had been led astray by circumstances.

The judge answered: "It is true that the defendant was a member of a good family in the South, but he came North here, married this girl and committed forgery. There can be no clemency. I sentence him to Elmira Reformatory."

Evans turned on his heel and walked back to the cell without changing the stolid expression on his face.

When his 18-year-old wife was brought out for sentence, she, too, was absolutely devoid of emotion. Her lawyer, Chas. R. Bradbury, made a plea for suspension of sentence on the ground that she was motherless and had no idea of the crime she was committing. He asked that she be committed to some religious home."

"This girl has led a spotless life," he said. "No finger can be pointed at her. Evans forged this check, and she did not know what she was doing in passing it. She thought of no more consequence than a reprimand from her father."

Judge Aspinall sentenced her to the Bedford Reformatory. She seemed entirely unimpressed by her sentence and walked back to the pen with absolute unconcern.

Contents of Mysterious Trunks.

The contents of the eight mysterious trunks unearthed by government Secret Service men in the vaults of the National Safe Deposit Company in Chicago occupied the attention yesterday of a federal grand jury, which is investigating the affairs of the so-called beef trust. A subpoena duces tecum for Daniel Peckham, secretary of the depository company, was issued by Federal Judge Landis to force the company to produce the trunks in the jury-room. The trunks were taken to the office of District Attorney Morrison, where, it is said, they were opened and their contents examined. As to what the trunks contained and what their connection with the present investigation might be, was unknown to those outside the jury-room, as government officers refused to discuss the subject. "I don't know a thing about these trunks," said Secretary Peckham, after having been served with the subpoena. "I cannot say who deposited the trunks in the vaults, because that would be violating business ethics." The mandate of the United States Supreme Court in the case against the meat packers has been filed in the Federal Circuit Court. The mandate modifies the injunction issued by the Circuit Court. In the opinion, however, of the federal authorities there, the mandate will not hamper the present grand jury in the work of investigating the charges against the alleged beef trust.

Escaped From Sanitarium.

Miss Grace Wilmerding, well known on the stage, who a year ago sued her husband for separation and support and who has been confined for the past year in the private sanitarium of George W. Hill, in New York, escaped from that place and yesterday afternoon appeared at the office of Mark Alter, formerly her counsel, and begged him to reopen her case. She is the daughter of the late Col. Vanderbilt Allen and a granddaughter of Commodore Vanderbilt. Alter sent her to Turner, Rolston & Horan, who have charge of the remainder of her father's estate still due her. She had only 20 cents when she called at Alter's office. The woman was committed to the sanitarium after her lawyers decided that her condition was such as to justify them in continuing the suit. After she had been in the sanitarium a month she escaped and went to Philadelphia, but soon returned to New York city and obtained employment in department stores. She returned voluntarily to the sanitarium. Yesterday morning a nurse tried to awake the woman. Investigation showed that what was supposed to be her sleeping form was nothing but a bundle of bedclothing. Miss Wilmerding fixed a dummy, hid in a closet and escaped through a window.

Victim of Stage Fright.

After Rev. William Dayton Roberts, pastor of Temple Presbyterian Church, in Philadelphia had finished his sermon Sunday night he announced that William H. Nancrede, a member of the congregation, would sing a solo. The crowded church was all expectancy, for it was known that, while Mr. Nancrede is possessed of a tentor voice of unusual power, he had always refused to sing in public. Dr. Roberts, after making the announcement, turned to the side of the pulpit, where Mr. Nancrede was seated, to beckon him forward. The pipe organ pealed out the first bars of the hymn, but Mr. Nancrede did not appear. He sat limp and apparently lifeless in his chair. Dr. Roberts rushed from the pulpit to the side of the singer and discovered that he had fainted. He directed srveral men to procure restoratives, and a messenger was sent to the Children's Homeopathic Hospital, just across the street, for medical aid. Two orderlies arrived from the hospitals, and Mr. Nancrede was placed on a stretcher and carried to the institution. After hearing the circumstances the physicians pronounced Mr. Nancrede's collapse as due to a severe stage fright. Under their care he soon became conscious.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, APRIL 11, 1905.

SENATOR MARTIN began his campaigne at Lunenburg yesterday, making a speech before a large audience. He made no direct reference to Gov. Montague, but said that before he would exalt himself by disparaging another he would retire from the race. He said it was his intention to stand upon his record. He than showed what he had accomplished for Virginia, not as a matter of self-glorification, but to show that the "department runner" had earned his salary. He admitted being true to his friends, and said that when he had favors to bestow they went to his friends, but that in his capacity as representative, he served friend and foe alike without asking how they stood. He made the statement that as he had been called a railroad attorney he desired to say that he had severed all connections with them when chosen Senator. He said further that when he was elected every railroad president in Virginia was opposed to him, and such was the case now. He closed by expressing willingness to let the people of Virginia pass on his claims. His speech was straightforward, manly and businesslike and in marked contrast with the intemperate address delivered by Gov. Montague a week ago.

ACCORDING to treasury experts, there will be a greater production of gold this year than ever before in the history of the country. Rich veins of the precious metal have recently been discovered in Nevada, and the general outlook has caused comment in financial circles. "A great increase in the production of gold," says Director Roberts, of the Mint Bureau, "means the coining of a proportionate number of coins. There is no limit set by law upon the amount of gold that may be put in circulation, and increased coinage means more money in circulation." This is the contention of many of the free silver men who want more money in circulation whether it be gold or silver.

THE GOVERNMENT has become entangled in the railroads' meshes as a taker of rebates. Secretary of the Interior Hitchcock and Director Walcott, of the geological survey, are charged by the Comptroller of the Treasury with having made contracts with western railroad companies providing for the payments of rebates to the government in violation of the Interstate Commerce law. How can the government prosecute others for an offense which is committed by its own agents?

Commissioner of Pensions Warner has cited ten members of the Board of Pension Review to show cause why their services should not be dispensed with. This action was taken by the commissioner because of the discovery of serious delinquencies in the allowance of pensions to members of a Pennsylvania regiment organized in 1861, which never participated in the service. An examination of the pension rolls would show that others beside members of Pennsylvania regiments are receiving fraudulent pensions.

CARBOLIC BOMBS are the latest contrivance used by rioters. A number of these dangerous missiles were thrown into crowds a day or two ago during the excitement incident to the Chicago strike. The meat of the egg is blown out and the shell filled with the acid, and the aperture being closed and sealed the bomb is ready for use. While arms and legs may not fill the air at the explosion of one of the "eggs," there is danger of people being blinded by them.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 11.

The Venezuelan mail which arrived today brought the text of the reply of President Castro to the demand of the United States that he should agree to submit the asphalt case and other claims of American citizens to arbitration. This demand which was submitted by U. S. Minister Bowen to the Venezuelan government two or three weeks ago was met with a response which Minister Bowen, in a cable dispatch to the State Department, charcterized as both "insolent and impertinent." At the State Department this morning while it was admitted that the reply had been received information was withheld as to its tenor. While it was undoubtedly unsatisfactory there was a manifest disposition to suppress its language or import. Assistant Secretary of State Loomis said that it would have to be submitted to the consideration of the Cabinet and intimated that nothing would be done in the matter until after the return of President Roosevelt from his hunting trip. The mail also brought confirmatory advices of the refusal of President Castro to receive Senor Lucas Cabellero who was appointed by President Reyes of Colombia as Colombian Minister to Venezuela in an effort to establish friendly relations between the two countries. President Castro declined to reestablish diplomatic relations with Colombia unless that country would first restore the two border provinces which the King of Spain, as arbitrator, gave to Colombia in the recent boundary dispute. His contention was that Colombia aided in the recent Matos rebellion and he demanded the cession of these two provinces as indemnity. Colombia, of course, absolutely refused to entertain the proposition and Senor Cabellero with drew from Caracas without having been able to present his papers. Senor Cabellero landed in New York yesterday. The State Department is advised that it is his intention to come to Washington in a few days but for what purpose is not known. It is possible that he may pave the way for a resumption of full diplomatic relations between this country and Colombia which were interrupted through the refusal of the Colombian Congress to ratify the canal treaty and which were broken off when Panama revolted and became an independent State. Since then the United States has sent a minister, Mr. Russell, to Bogota, who has made a most favorable impression, but Colombia has been without representatives here. While here Senor Cabellero will probably endeavor to interest the United States in the Colombian contention that Panama should bear a portion of the foreign debt of Colombia which was contracted when Panama was still a part of Colombia and one of her most valuable assets.

Senor Don Emilio de Ojeda, the Spanish Minister, called at the State Department this morning and presented his letters of recall. He has been appointed under secretary of foreign affairs at Madrid. He will leave Washington tomorrow and expects to sail for home on the 18th inst. Minister Griscom, at Tokio, has informed the State Department that he has been advised by the Japanese government of the closing of the port of Kelung to foreign ships until further notice. No reason for this order is given. The port of Kelung is situated on the nothern part of the Island of Formosa and is in fact its principal port. It is considered quite likely that the impending conflict between the Russian and Japanese fleets has much to do with the closing of the port to foreigners.

The grandson of the George Washington oak which Secretary Hitchcock planted in the White House grounds a year ago, has succombed to worms and other enemies. Two gardeners dug up the little trees, this morning and consigned it to the rubbish heap. The tree was grown from an acorn that Secretary Hitchcock brought from St. Petersburg when he was Ambassador to Russia. The tree that bore the acorn was in its turn grown from an acorn that fell from the oak which Washington plainted at Mount Vernon.

Edwin Morgan, the newly appointed Minister to Korea, was at the State Department this morning getting his final instructions. He will leave tomorrow to visit his home at Aurora, New York, and expects to sail for Korea on May 3rd.

M. P. CONFERENCE.

At the session in Salisbury, Md., yesterday of the Methodist Conference, the proposition for union with the Primitive Methodist Church of the United States was discussed It was discovered that this body of Christians, numbering about 7,000 and residing for the most part in Pennsylvania, were really ready to be absorbed by the Methodist Protestant Church, but the form of placing their ministers, which they wanted to retain, was too congregational for the itinerary of the church, and the matter was postponed until the next conference, so as to give time for more investigation.

Resolutions were adopted levying $1,800 on the district for the conference seminary at Westminister and that Dr. H. L Elderdice be assigned as president and that the pulpits be opened for the claims of the seminary. Dr. Lewis said that the college endowment fund had fallen off during the year. Striking Italians.

One hundred Italians employed on the new line of railroad of the Pennsylvania Railroad Company near Lancaster, Pa., struck for higher wages yesterday. Headed by a man carrying a red flag, they marched along the four miles of work east of Quarryville and compelled the other men to quit. They attacked two gangs of Austrians who attempted to continue at work, and beat several of them severely. Teams were taken from teamsters, who resisted, while engineers who refused to do as ordered were dragged from their dinky engines. All operations on that section of the work were suspended later in the day. Everything was quiet last night, but trouble is feared as the strikers declare they will permit no one to work until their demands are complied with. A number of special constables have been swore in to protect the non-strikers.

The Two Fleets.

Dispatches from the far East received at an early hour this morning that the exact whereabouts of both Vice Admirals Togo and Rojestvensky, commanders, respectively, of the Japanese and the Russian fleets, are as yet unknown. It now appears that the Russian squadron that passed Singapore and was seen at anchor Sunday near Manki, an island of the Anambas group, 150 miles northeast of Singapore, is commanded by Rear Admiral Enquist. Rojestvensky is probably on a battleship in another small division of the fleet.

Should the Russians attempt to seize the Dutch island of Great Natuma for use as a base they may clash with the Dutch, as a Dutch squadron has left the Island of Java under secret orders, evidently to enforce neutrality. An American cruiser and two torpedo-boat destroyers are cruising around the Philippines to prevent any violation of neutrality. Supposed Russian warships reported off Muntok are believed to be the Dutch squadron.

Japanese officials believe Rojestvensky is not looking for an immediate engagement, but that he will attempt to reach Vladivostok. It is also thought he may have a second rendezvous in the Pacific Ocean.

Assaulted and Robbed.

A hunt is in progress in Henrico county for the assailants of W. A. Cairns, a well-known saw mill owner, who is in a serious condition from wounds received while going through a lonely road Friday night with a roll of money to pay his men for their week's work. Mr. Cairns had $280 in his pockets, and a gold watch. The mill is situated in a remote section of the county, and is reached by a road running through a dense wood. It is near the famous Seven Pines battlefield. Mr. Cairns was near the mill when he received a blow from behind which stretched him unconscious on the earth. Two hours later he came to himself, and found his money and watch gone. With tottering steps, he reached a house some distance off, where he has since lain desperately ill. His wife is absent in Massachusetts, whither she went to bury her mother. The governor will be requested to offer a reward, and every effort will be made to capture the guilty ones.

Town Destroyed by Fire.

The extensive plant of the Condon Lane Boom and Lumber Company, at Horton, W. Va., one of the largest in that State, was destroyed by fire yesterday, and with it went the entire town, consisting of a hundred and fifty company houses and millions of feet of lumber, shipment of which had been prevented by shortage of cars. Sparks from the dinkey engine on the logging railroad set fire to the woods, the flames gradually eating their way to the town and plant. In the hope of saving the twin town of Whitmer, houses have been pulled down, but a high wind makes this probably of little avail. Horton is the terminus of the Dryford Railroad. The mills destroyed had a capacity of 1000.000 feet a day. No estimate of the loss is obtainable to night.

Young Girl Assaulted.

A dispatch from Butler, Tenn., says that Lochie Bunton, a white girl, fourteen years of age, was criminally assaulted by three white men, well known in that section, last Friday, in the woods, three miles from that town. The men are said to have been drunk. Their victim is unconscious, and the men are hiding in the mountains and defying arrest. The men are said to have overtaken the girl on the road while driving through the mountains, and compelled her to get into the hack and ride with them. After taking the girl in they are said to have left the road and committed the crime. A posse headed by a well-known mountain character, Nat Cardon, has been on the trial of the men since Sunday morning.

LETTER TO F. W. DEVOE & CO.

Crewe, Va., April 5, 1905.

Gentlemen:—Mrs. D. P. McCormick, of this place, wanted her house painted lately.

Her painter estimated forty-five ($45) dollars for his paint.

We estimated on Devoe Lead and Zinc and told her that forty-two ($42) dollars worth of Devoe paint would be sufficient to paint the house and induced her to use your paint.

The painter finished on last Monday and had enough left over to bring the paint bill down to thirty-five ($35) dollars, as he returned six gallons of paint.

Her house is one of the largest in the town and people who have seen it say it is also the whitest house here, being much whiter than houses painted with other white paints.

So much for Devoe "The Fewer Gallons; Wears Longer" paint. Yours truly,

LENEAVE BROS.

Today's Telegraphic News

The War in the East.

London, April 11.—There has been little news today in regard to the movements of the hostile fleets in the waters of the far East.

The only news so far has been the reported sighting of two Japanese cruisers on Sunday heading toward Singapore, and watching the route toward Saigon, Cochin China.

The experts agree that for the present Admiral Togo will probably content himself with using his swift vessels for cutting out odd stragglers, especially Russian colliers.

It is understood that Admiral Rojestvensky can put seven battleships into the conflict against four or five Japanese battleships. He is also believed to have the numerical superiority in cruisers. The Japanese have a considerable preponderance of swift small craft, and are not impeded by colliers, as they have the advantage of a good base.

London, April 11.—A private telegram received here from Singapore says that four large steamers, apparently colliers, passed Singapore this moruing, going eastward. It is believed the vessels are the advance guard of the sixteen German vessels which were chartered by Russia as supply ships to the Baltic squadron. It is supposed that Admiral Rojestvensky is awaiting the arrival of this fleet before trying to cross the China sea.

Tokio, April 11.—Japan is preparing to send strong reinforcements to Manchuria to strengthen Field Marshal Oyama's forces. It is expected that by autumn Japan will have a million men in Manchuria, including fully 700,000 men on the fighting line.

Rome, April 11.—The Admiralty is in receipt of a dispatch from the commander of the Italian squadron in the far East, which indicates that Admiral Togo has concentrated his naval force and fully organized it for action. The dispatch says that the Japanese commander has arranged his fleet in three divisions. In the first division, are the fastest cruisers, which form a flying squadron, for scouting purposes, and to open the attack. The more powerful vessels form the second division under the immediate command of Togo, and the third division is a reserve squadron.

Murdered in Bed.

New York, April 11.—Camelo Seraone, aged 19, employed as a barber, by Tony Catilino, at No. 470 Meeker avenue, Williamsburg, was found murdered in his bed this morning. His throat had been cut from ear to ear, and the head almost severed from the body. The police are searching for Paul Catilino, aged 56, father of Sernone's employer, who they believed, committed the crime. The elder Catilino, it is said, recently developed a hatred for his son's friend which became a mania with him and that he frequently threatened to kill him. Seraono slept in a room back of the barber shop with an apprentice. Depoce Genaro. The latter was awakened this morning by the warm blood of his bedfellow flowing over his body. He screamed and the other members of the Catilino household rushed in and later called the police. It was then found that the elder Catilino was missing.

Broke Up Meeting.

St. Petersburg, April 11.—A demand was made today by Governor General Trepoff for the list of the barristers who attended the Pan-Russian congress of barristers, which met yesterday. The barristers adopted resolutions providing for the formation of an association to foster social and professional intercourse, and to strive for the political freedom of Russia on the basis of a democratic constitution. The police broke up the meeting on the ground that it had not been authorized and expelled the delegates from the hall, where they were meeting. It is believed that the demand today for for the names of those who attended the gathering means that they will be expelled from the city.

Germany and Morocco.

Berlin, April 11.—Steps are already being taken to utilize the advantage which, it is felt, has come to Germany through the Kaiser's recent visit to Tangier, in a business way. A German syndicate has been formed to operate in Morocco. It will initiate all possible forms of commericial enterprises in that country. An expedition will be sent out to Morocco in the near future. There is a good prospect for the establishment of a number of profitable enterprises.

Four-ton Meteor.

Hazleton, Pa., April 11.—A meteor, weighing about four tons, and perfectly round, was found embedded in a lot of clay yesterday near the city's stone crusher It is perfectly round and peculiar that people from miles around gathered to view the strange phenomenon. Steps are being taken by the city to dig it out and placed it at some prominent point for preservation.

Porte Taxes Petroleum.

Constantinople, April 11.—The Porte has introduced a new tax on petroleum in the form of a bond. The tax is really an increase in the custom duties of from eight to fourteen per cent. Nominally it is a municipal tax, but it is believed that it is really designed to cover a part of the budget deficit. The new tax will affect principally American and Russian traders.

The Maccabees' Banquet.

The annual banquet of Alexandria Tent No. 2, of Maccabees, last night, was one of the most enjoyable occasions of the season. Between 75 and 80 members and a few invited guests of the order gathered at Mrs. Bohraus's Hotel, on Columbus street, near King, where a tempting collation had been spread.

Dr. R. L. Wilkins presided and acted as toastmaster. After the discussion of the feast Rev. J. A. Jeffers, of Trinity M. E Church, delivered an interesting address on the objects of the order, which was listened to with close attention.

Mr. Jeffers was followed by Mr. G. L. Boothe, who spoke on fraternalism. His address was well delivered, and it abounded in happy thought and interesting facts.

Deputy State Commander C. A. Bladen made an interesting exhibit of the State statistics of the order, as did also Mr. George J. Bender concerning its financial condition.

Addressess were also delivered by Messrs. M. Hobaker C. O. Pulman, H. T. Colvin, Dr. E. A. Gorman and others.

The Maccabees is a flourishing and popular Alexandria institution, and increasing its membership steadily. During this month 22 new members have been added and a number of new applications for membership received.

The order throughout the country numbers about 360,000, and during its existence it has paid out about $20,000,000 in death benefits. There are tents in every State in the union and Canada.

The Children's Home,

No. 406 Duke street is entirely a home for children, and its officers are doing a noble work caring for those under their care, 17 of whom are Alexandrians. The children receive domestic training as well as an education every afternoon with exception of Saturday, and all who are old enough attend school which is held in the home. Sunday afternoon the ladies of the W. C. T. U. have Sabbath school, which is the delight of the little ones. Sunday morning the larger children attend the different church schools. The institution is un-denominational. The children are trained morally, intellectually, spiritually as well as in household duties, so when they leave the home they may be self-supporting and able to make a place for themselves in the world. There is no nobler work than training the young and laying a good foundation for the future man and woman. Without this home what would be the present condition and the future of these little ones? The children are bright happy and intelligent. Thanking the friends for all they have done for the home in the past be bespeak for this institution the hearty co-operation of the white community, so we can make this worthy object, "The Children's Industrial Home," one which we are can be proud of, for what greater work is there than caring for the helpless and homeless little ones. Visitors are received every afternoon.

Deaths.

Mrs. Maria Posey, wife of Mr. Henry Posey, died at her home on Wilkes street near Royal, last night. The deceased had been in ill health for a long time. She leaves a daughter. The deceased was a daughter of the late John Nightingill. This is the third death which has occurred in Mr. Posey's family in a comparatively short space of time. His only son, who was approaching manhood died recently. His death was followed by that of his sister, and now the mother of the family has paid the debt of nature. The stricken husband and his remaining child have the earnest sympathy of their many friends and acquaintances.

Mrs. Rosie B. Wagner, wife of Mr. Alexander Wagner, died at her home on Prince street, near Fayette, at an early hour this morning. The deceased was 32 years old and was a native of Pennsylvania, and her remains will be forwarded to Chambersburg for interment by Mr. B. Wheatley.

Catharine, the four-year-old daughter of Mrs. Grace B. and the late David Makely, died at the home of her mother, 511 south Henry street, this morning.

Disappointing Conditions.

Affairs at Fishtown were in a semi-torpid state this morning. The effluvium from recent cuttings under the warm sun was rank. The receipts of fish were light and prices firm for herring and in the ascendant for shad. The favorable weather of the past few days has not produced the results anticipated, and the spirits of those engaged in fishing operations are depressed. There was a light run of shad last spring—that is, comparatively few were received here. Officials of the Fish Commission had predicted a plethora of this toothsome fish in 1905, but their prophecy remains to be fulfilled. Herring were quoted at $3.50a4 per thousand this morning, and shad at 38 cents for roe and 18 for buck. The demand at present for both shad and herring is greater than the supply, and some orders could not be filled today.

Financing the Enterprise.

The plan proposed for financing the new enterprises that are to be started by the Norfolk and Washington Steamboat Company, namely, the ferry service between this city and Washington and a day service between Washington and Norfolk, is to increase the capital stock of the company and to authorize a bond issue. According to this plan the capital stock will be increased from $600,000 to $700,000, a share of the new stock to be allotted at par to every six shares of the present stock. The proceeds of this new issue will be used in equipping the proposed day service. At present the company has no bonds. It is now proposed to issue $300,000 5 per cent bonds and use the proceeds in the purchase of the franchise of the ferry company and the necessary boats.

Mr. Howell in South Carolina.

The election on the question of granting a franchise for water works and electric lights for the town of Bamberg, S. C., took place last Monday as advertised, and the franchises were ratified by large majorities. Work will commence on the plants in a short time. The Herald of that town says: Mr. D. J. Howell, one of the grantees in the franchise granted at the election on Monday last for the construction of a water works system and electric light plant, is a resident of Alexandria, Va., and a civil and electrical engineer with office in Washington, D. C., who has been engaged in private practice of his profession for a number of years through the eastern and southern States, having been employed by a number of towns and cities and individuals as consulting engineer in the preparation of plans, specifications and superintending the construction of water works systems, electric plants, hydraulic developments and electric railroads. Mr. Howell was also the consulting engineer to the State engineer of New York in charge of the extensive surveys, plans, and estimates for the 500 miles of State canal improvements, involving an expenditure of over one hundred million dollars, upon the construction of which work the State of New York is now engaged. Mr. Howell is also interested in and is the manager and treasurer of a water and light company in West Virginia, which he organized and was its engineer of construction. He will return here in the course of a few weeks to take up the question of surveys preparatory to arranging for the organization of the company and the building of the water works system and electric plant, when he will arrange to meet a representative of the insurance companies regarding the construction of the water works system in such a manner as to reduce the present rates of fire insurance. He will also at this time freely consult with the town council as to their wishes in the location of fire hydrants and street lights and other matters of construction.

University Dramatics.

"The Khan of Kathan" has been chosen by the Arcadians, the University of Virginia Dramatic Club, for its Easter performance. This marks a new venture, since the "Kahn of Kathan" is a comic opera with an oriental setting and a modern plot. Words and music are by two Columbia University students and the opera was originally staged by Columbia dramatists. By their courtesy it is to be given by Virginia students in Charlottesville April 28 and 29, under the supervision of the well-known dramatic coach, Mr. Frank Lea Short, who made the original performance such a brilliant success.

The occasion will be in the nature of a reception, and a cordial invitation is extended all people in the city, regardless of creeds or affiliations, to be present.

The Corporation Commission has granted a charter to the Goodloe Company, of this city, the object of which is to conduct a dry goods and notion business. The capital stock is $25,000 and the incorporators are C. L. Goodloe, jr., president; O. R. Thornhill, vice president, and D. A. Compton, secretary and treasurer. These and Mr. C. E. Tackett are the directors. The purpose of the organization is that Messrs. Compton and Thornhill might become members of the company.

Alexandria Light Infantry.

The meeting of the Alexandria Light Infantry last night was well attended. Mr. Samuel Robey was elected second lieutenant in place of Mr. Charles Pierpoint, who declined the position. A court martial subsequently convened for the purpose of examining charges against several members who failed to attend State and government inspections. The findings have not been made known.

The Elks.

The recently elected officers of the Alexandria Elks assumed the duties of their respective offices last night at a largely attended meeting of that order. Five new members were elected. After the meeting a social session was held which was greatly enjoyed by all present.

The Weather.

The weather yesterday, last night and today was comparatively warm and mostly fair. At the close of yesterday the northern and western heavens became overshadowed with clouds, and there were evidences of an approaching storm. Lightning flashed incessantly for a long time and occasionally distant thunder was heard. The clouds, however, emptied themselves elsewhere, and this morning's dispatches showing that severe storms raged north of this vicinity.

He Wanted That Wine.

General Sir E. Hamley is cited as the authority for a good anecdote about Bismarck. Hamley was sitting close to the chancellor at luncheon, with the old Emperor William not far off.

Bismarck, talking rather loudly, described the old monarch as being generous, but very forgetful. Hamley got nervous, as he thought the emperor would hear. "For instance," continued Bismarck, "I pleased him the other day, and he asked me what he could do for me. I said, 'Give me a dozen of that Tokay you have in your cellars,' and he said he would. "But," added Bismarck, raising his voice still higher, "he hasn't done it." Here Hamley hastily broke in, "I beg your pardon, but I am really afraid the emperor will hear you." "I want him to hear me!" roared Bismarck. "That's just what I want." And a smile broke over the face of his imperial master.—"Fifty Years of Fleet Street."

Tiger Story From India.

A man living in a village near Lucknow is reported to have had an extraordinary adventure in the jungle. He had gone in search of two buffaloes that had gone astray when he was attacked by a tiger.

He was unarmed except for a heavy stick, with which he fought until overcome by loss of blood, when he sank unconscious. At this moment the two buffaloes appeared. One of them stood over the wounded man, while the other snorted and tossed his head.

The man recovered consciousness and staggered to his feet, when the tiger made another spring at him. The beast was, however, received on the horns of one of the buffaloes and was so badly wounded that it turned tail and slunk away.—London Express.

Liquid Metal Polish.

Take eight ounces of Spanish whiting, which must be perfectly free from grit, and put in one quart of gasoline. Shake up the whiting and gasoline thoroughly. You will notice the whiting settles immediately, leaving the liquid as clear as water. To remedy this and, further, to make it a better polishing agent, add to each quart of the mixture thirty-two drops of oleic acid—no more, no less. Shake again, and the whiting will not settle. Apply to gold, silver, nickel, brass, glass or any kind of metallic surface with a piece of cotton flannel, rubbing well. Polish with a piece of same cloth.—Blacksmith and Wheelwright.

Waterproofing Dress Goods.

One of the most important processes used for waterproofing dress materials is on the lines of the old alumina process. In this case the factor used is rosin dissolved in a large bulk of petroleum spirit. The fabrics to be proofed are passed through a bath of this solution and dried to drive off the solvent. Following this, the goods are treated by pressing with hot polished metal rollers. This last process melts the small quantity of rosin which is deposited on the cloth and leaves each single fiber with an exceedingly thin film of rosin on it.

Forests and National Prosperity.

As a living example of the consequences of deforestation we need simply look to Spain, a country which centuries ago was rich in timber and agricultural products, a proud seafaring nation of world conquerors. Spain's decadence dates from the time when her timber supply became exhausted, her shipbuilding relaxed and her barren, unprotected soil ceased to bear fruit.—Forum.

A Long Way Around.

A man with a large family of daughters on his hands may profit by the following suggestion: An old lady who had several unmarried daughters fed them largely on a fish diet because, as she ingeniously observed, "fish is rich in phosphorus, and phosphorus is useful in making matches."

Just a Question

Is it cheapest to buy what is cheapest in price or what is best in value?

It is possible for any one who wants to hang out his sign to sell cheap merchandise. The wholesale market is full of it. But the man who sells it caters to today's trade and forgets the tomorrow, which means success.

Your Spring and Summer Wants

The President and Santo Domingo.

In the instructions of the American agents selected to collect the Santo Domingo revenues great care has been taken to emphasize that the agents are not acting for the United States, but for the Dominican government.

The attitude of President Roosevelt toward this question of the South and Central American republics has materially changed since the adjournment of the Senate without ratifying the Santo Domingo treaty.

Though on the surface it appeared as if the failure of the treaty was due to democratic opposition, the President on calling Congressional leaders into conference before entering upon the present unofficial arrangement found that the principal men of his party in the Senate entertained no doubt that the assumption that the Monroe doctrine places responsibility upon the United States for the conduct of these small republics is entirely erroneous, and that a policy based upon such an assumption would be unwise in the extreme. It is understood that the President was finally brought to consider this view of the question and that if he did not actually adopt it he at least acquiesced to the extent of changing his programme with reference to our southern neighbors.

This change of programme affects not only the future developments of the Santo Domingo matter, but involves an abandonment of the plans, which were long considered, to make an impressive demonstration against Venezuela. The vessels which were being assembled in Southern waters with the ultimate object of impressing Castro will not now be used for that purpose.

Favors Submarine Boats.

The third committee of the fortification board, of which Rear-Admiral Charles M. Thomas, United States navy, is chairman, is devoting special attention to the dangers incident to the use of submarine mines, and it is learned that in the forthcoming report emphasis will be placed on the advantage of substituting submarine boats for mines in harbor defenses. Discussing this subject, a member of the committee said: "Mines cannot be relied upon in time of war. The trials given submarine mines in Narragansett bay resulted unsatisfactorily, due chiefly to the strong currents which sweep through the harbor and entrances to the bay and make such defenses extremely dangerous. This is one of the important subjects that the fortification board has already taken up and will thoroughly examine during the inspection of fortifications and the land and floating defenses. The established fact that a number of the Russian warships were blown up by their own submarine mines and the present practice of England in discarding submarine mine defenses to a great extent in harbors where there are wide channels to defend and where the tides are strong, and placing there submarine boats, has added to the sentiment in favor of replacing mines with boats."

New Cure For Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

FOR OVER SIXTY YEARS

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

The Right Name is DeWitt.

DeWitt's Witch Hazel Salve cools, soothes and heals cuts, burns, boils, bruises, piles and all skin diseases. K. E. Zichefoose, Adolph, W. Va., says: "My little daughter had white swelling so bad that piece after piece of bone worked out of her leg. DeWitt's Witch Hazel Salve cured her." It is the most wonderful healing salve in the world. Beware of counterfeits. Sold by W. F. Creighton & Son, 924 Queen street.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timberman and W. F. Creighton & Co.
